

México, D.F., a 23 de mayo de 2013

Diputado Ricardo Mejía Berdeja

Presidente de la Comisión Especial para indagar el funcionamiento de las instancias del Gobierno Federal relacionadas con el otorgamiento de permisos para Juegos y Sorteos

Cámara de Diputados

Tal y como lo expresé el pasado 16 de enero frente a la Comisión Permanente del Congreso de la Unión cuando respaldé la creación de la Comisión que usted dignamente preside, soy el primer interesado en que las acusaciones relativas, que en mi contra se han hecho, sean aclaradas. Es mi convicción que todos los actores políticos tenemos la responsabilidad de someter a juicio democrático nuestra labor y nuestra trayectoria. Por ello, le ruego considere la posibilidad de citarme a comparecer ante la Comisión para ofrecer una explicación puntual y exhaustiva sobre las falsas imputaciones que pretenden vincularme a la industria de los casinos. Esta oportunidad serviría para responder a las inquietudes de los legisladores a fin de que puedan ejercer a plenitud el mandato que la Cámara les ha dado de conocer la verdad y actuar en consecuencia. Es mi convicción y mi interés que así sea y es por ello que solicito la oportunidad de contribuir desde mi alcance.

Sin otro particular, aprovecho para enviarle un afectuoso saludo,

  
Roberto Gil Zuarth  
Senador de la República

 RECIBIDO  
Nadia Tinoco V.  
Dip. Salinas Garza J.  
24 Mayo 2013.

Dip. Jorge Iván Villalobos Sáenz, Vicecoordinador del GPPAN EDIF-H-4º PISO  
Dip. Aurora de la Luz Aguilar Rodríguez, Secretaria de la Comisión EDIF-H-4º PISO  
Dip. José Arturo Salinas Garza, Integrante de la Comisión EDIF-H-2º PISO

RECIBIDO LXII

But, I have a question about the  $\mathbb{R}$ -module structure of  $\mathcal{O}_X$ . I know that  $\mathcal{O}_X$  is a sheaf of  $\mathbb{R}$ -algebras, but I don't know how to define the  $\mathbb{R}$ -module structure. Can you help me with this?

1. The first step in the process of identifying a problem is to define the problem. This involves identifying the symptoms of the problem and determining the scope of the problem. Once the problem has been defined, the next step is to identify the causes of the problem. This involves identifying the factors that are contributing to the problem and determining the underlying causes. Once the causes have been identified, the next step is to develop a plan to address the problem. This involves identifying the actions that need to be taken to address the problem and determining the resources that will be needed to implement the plan. Finally, the last step in the process is to implement the plan and monitor the results. This involves putting the plan into action and tracking the progress of the plan to ensure that the problem is being addressed effectively.
